

## **PRESCRIPTION INSTRUCTIONS FOR EXTRACTIONS AND IMPLANTS**

Take the following prescription as follows:

- 1) Ensure you have no allergies to any of the medications.
- 2) Take 3 tablets of the Serax (sedative) the night before your appointment and 3 tablets again 1 hour before your appointment time. Be sure to bring the remaining tablets with you to your appointment.
- 3) Take the Amoxicillin one hour prior to your scheduled appointment time and continue taking as directed until completed.
- 4) Start the Decadron 30 minutes after your appointment and take as directed until completed.
- 5) (Have available to take Ibuprofen 200 or 400 mg tablets – take Tylenol if unable to take Ibuprofen). Take 600 mgs Ibuprofen 30 minutes after your appointment time.

If you have any questions or concerns, please feel free to contact our office at 604-826-2960.
